Principles

- Web Standards
- AJAX
- Responsive Web Design
- Cross-browser compatibility

Programmes

- Sublime Text
- Cyberduck
- Illustrator
- Photoshop
- InDesign
- Flash IDE

Leisure

I'm a 26-year old Danish guy who lives and works in Copenhagen. I recently became a father, which has been – and still is – a wonderful experience. Right now I spend most of my free time with my girlfriend and my daughter, but when I'm not with them, I enjoy playing video games and hanging out with my best friends.

I like to read about the technologies I spend my daily life working with. I'm always seeking out new knowledge on sites like Smashing Magazine and A List Apart. One of my favourite

things is finding an interesting blog post or article, send it to my Kindle and read it later at my own leisure.

I love coffee. I'm not particularly picky when it comes to a regular cup of joe, but when I'm home with my own equipment I like to take my time and really get that perfect cup. For the time being I'm very pleased with the results I get from grinding my own beans and brewing in a stovetop Bialetti Moka Express.
